INTERNSHIP

Prompt InfoTech Intern	2025
-------------------------------	-------------

Completed an internship in networking and offensive security with hands-on experience in TCP/UDP fundamentals, packet analysis, and common network diagnostics. Conducted OSINT, vulnerability scanning and web-app/network testing using tools such as Nmap, Nessus, Nikto, Metasploit, Burp Suite, Wireshark, Shodan and vulnerable labs (DVWA, Metasploitable2).

Ethical Edufabrica Pvt. Ltd. Intern	2025
--	-------------

Gained hands-on experience in ethical hacking and network security, working on a project titled Firewall. Contributed to vulnerability assessments, network defense strategies, and security reports, enhancing my practical knowledge of cybersecurity tools and techniques.

PROJECTS

SilentN0te (Audio Steganography Tool): (link)	2026
--	-------------

An advanced data security solution that embeds secret messages within audio files using steganography techniques. The tool uses XOR encryption and wave file manipulation to encode and decode confidential information, ensuring secure communication without altering the perceptible content of the audio.

CrypTool (Text Decoder): (link)	2025
--	-------------

Developed a Python-based multi-decoder tool capable of decoding ROT(x), Base64, Base32, ASCII, and Hex-encoded data. Implemented an interactive CLI for input handling, error management, and iterative decoding operations.
